American specialty is a high density storage system and material handling company based in Florence South Carolina.

We have been a South Carolina Inc. small business since 1991.

We serve business, government and industry in South Carolina, North Carolina and Georgia with storage system solutions, material flow solutions and professional services.

Major product lines represented include:

- Modula** Automated warehouse storage and retrieval systems. Save floor space, improve warehouse management, and improve picking.
- Rapistack** Dynamic stacker crane storage systems for die/mold management, maintenance, WIP, steel service and roll handling.
- Flexspace360** Pallet rack mobile aisle systems.
- Spacefile** High density mobile aisle systems and shelving systems.
- Cogan** Mezzanines and work platforms.
- Elite Storage** Roll form and structural pallets.
- EZO Bord** Acoustic panel systems. Flexible decorative, sustainable, tackable, and easy to install.
- Interroll** Pallet and carton flow systems.
- IOPC** Modular millwork. Active sustainable workroom furniture systems.
- Nex Gen** Dynamic cart picking in reverse logic systems.
- SAM** RFID and bar code asset tracking software systems.
- Swiftspace** Rapidly deployable and sustainable desking and benching systems.
- Tennsco** Shelving, heavy duty racks, and cabinets.
- Wirecrafters** Fabricated woven metal panels for lockers, machine guards and barriers.
- Wynright** Conveyor and sortation systems mini-load and unit load ASRS systems, AGV systems.

American specialty installs and services what we sell. Certified technicians are dispatched from our Florence South Carolina location. They perform all system installations and provide warranty service and maintenance service as required.
